## ***FAA Part 141 – Robinson R-22 VA Course Catalog***

Northeast Helicopters and the Veterans Administration (VA) have enjoyed a working relationship for over 25 years. Students wanting to utilize their Montgomery GI Bill benefits must attend a flight school that is an approved FAA Part 141 school, and keep a current FAA Class I or Class II medical at all times.

The student must pay for their Private Pilot Course or Private Pilot Add-On Course on their own. The VA will not reimburse students for the cost of these Courses.

If you are not sure if you are entitled to benefits, you can apply on line at [www.gibill.va.gov](http://www.gibill.va.gov), or call toll free at 888-442-4551, press #1 then #0 to reach a counselor.

### **NEH Enrollment Procedures:**

If you are a new student enrolling at NEH, you will be required to enroll with the owner, Rhonda Boulette and supply her with the following documentation before your first day of training:

- a) an original US birth certificate (must be the original) or a valid US passport
- b) Valid drivers license or a photo ID
- c) Your current medical certificate

These items will be kept on record for 5 years at NEH for TSA (Transportation Security Awareness) purposes.

Please remember, all of these items will need to be complete before your training begins.

What follows are the NEH course breakdowns explaining what the VA will pay and what they do not cover:
